Installing the Genetic Algorithm for Subarray Optimization

1 Prerequisites

Download the following modules :

- Python 2.7.5 (https://www.python.org/downloads/),

- Astropy (http://www.astropy.org),

- CASA (https://casa.nrao.edu/casa_obtaining.shtml).

2 Installing

- Extract the folder GA_Subarray_Optimization.tar.

3 Use

- Read the user help file "Cook_Book.pdf".
